

Application for Port seat on the Project Review Committee

Kyle Dilbert – Senior Manager, Construction Contracting

Port of Seattle 17900 International Blvd – SeaTac WA, 98118 · 206-499-6125 · Dilbert.k@portseattle.org

April 19,2022

PRC – ATTN: Talia Baker

CPARB,

I'm delighted to submit my application to renew my seat on the Project Review Committee (PRC) representing Owner, Ports. I have been grateful for the opportunity over the last three years to sit on the PRC and assist the community in this vital work. I believe my 17 years of public contracting experience including dozens of alternative public works (APW) projects have been an assist to this committee. Specifically, during the last three years as a PRC member I have gained considerable insight into Washington APW processes, risks, and best practices. During that same time the Port of Seattle has developed a robust APW program including a PRC certification and a capital team that is anticipated to deliver 9 APW in 2022. It is my hope that I can leverage my years of experience, specific PRC knowledge, and Washington Capital Delivery expertise to support other public owners and business partners.
